

Protect Your Pets From FLEAS & TICKS!

Use the products we know and trust for our own pets!
Apply topical products monthly, year-round for best protection!

For all topical products, do not bathe pet or allow pet to swim 24 hours before or after applying product.

Dogs:

- Parastar Plus for Dogs (*fipronil, cyphenothrin*)

- Provides the **fastest tick kill**, starts to kill ticks in as little as 1 hour.
- **Two** active ingredients for fast-acting, long-lasting control of ticks, fleas and chewing lice.
 - Provides significantly superior speed of tick kill for a whole month, compared to Frontline Plus.*
 - Outlasts Frontline Plus, effectively killing ticks all month long.*
- For use on dogs and puppies 12 weeks of age & older. **NOT** for use on cats!
- When using this on your dogs, keep separate from cats for 12-24 hours after applying. This will allow time for product to dry.

- Parastar for Dogs (*fipronil*)

- Kills fleas & ticks, including those that may transmit Lyme disease, chewing lice and mites that may cause sarcoptic mange.
- Fast-acting. Long-lasting. Waterproof.
- Same active ingredient as Frontline Plus.
- For use on dogs and puppies 8 weeks of age & older. **NOT** for use on cats.

Cats:

- Easy Spot for Cats (*fipronil*)

- Kills fleas, flea eggs and flea larvae & prevents all flea stages (eggs, larvae, pupae) from developing.
- Kills all life stages of ticks (larva, nymph and adult).
- Rapidly eliminates chewing lice infestations.
- For use on cats and kittens 8 weeks of age & older.

- Revolution (*selamectin*)

- Kills adult fleas and prevents flea eggs from hatching.
- Treats and controls ear mite (*Otodectes cyanotis*) infestations.
- Prevents heartworm disease caused by *Dirofilaria immitis*.
- Treats and controls intestinal hookworm & roundworm infections.
- For use on cats and kittens 8 weeks of age & older.
